

Shilat Dror

Skilled in planning and executing tasks, works well under pressure and in dynamic environments. A strong team player with excellent communication and problem-solving skills.

EXPERIENCE

Matrix-InnerCloud, IL — *NOC\SOC Engineer*

Nov 2022 - PRESENT

As an NOC\SOC Engineer, I ensure smooth IT operations by developing knowledgebase articles, creating standardized playbooks, and managing servers on VMware and AWS. My role combines technical expertise with problem-solving skills to maintain high availability, performance, and security of our network and server environments.

- Proactively monitor and analyze security threats.
- optimizing SIEM rules and conducting advanced monitoring of system logs and network traffic.
- Investigate and resolve security breaches, collecting incident data for monthly reports, and maintain documentation for security systems and procedures.
- Conduct and document cyber incident investigations.
- Basic scripts with PowerShell.

EDUCATION

Holon Institute of Technology

2020 – 2024 - B.Sc. in Computer Science

- A Bachelor of Computer Science focused on the study of computing principles, software development, and technology. The program covers core subjects such as programming, data structures, algorithms, computer systems, and software engineering.
- Relevant Courses: Databases, Operating systems, Advanced OOP and OOP Design Patterns, Principles of software languages, Data structures, algorithms, Testing and quality assurance.

MILITARY SERVICE

Policewomen

2018 – 2020 – Israel Police

Served as a police officer in the Israeli Police Force from 2018 to 2021. During my military service, worked as a patrolwoman, responsible for handling various emergency hotline calls and responding to incidents in real-time. a role that required quick decision-making, effective communication, and the ability to perform under pressure, all of which she executed with dedication and professionalism.
